

**Methodology and Annotated Survey for  
2005 Maryland Legislative Issues Survey:  
Voting Issues Newsletter  
August 2006**

AARP conducted the 2005 Maryland Legislative Issues Survey in October through November 2005, and produced the 2005 Maryland Legislative Issues Survey: Voting Issues Newsletter. This survey covered a variety of legislative issues, while this particular report highlights voting issues in Maryland. Five thousand AARP members were randomly selected from AARP's membership database and proportionally stratified by three age segments—50 to 59, 60 to 74, and 75+. There were 2000 members Statewide and an oversample of 1000 AARP members in three Maryland districts: District 11, District 12a, and District 28 for a total sample of 5000.

The survey and all related communications from 2005 Maryland Legislative Issues Survey were mailed to AARP Maryland members between October and November 2005. First, a prenotification postcard was sent. This was followed by a cover letter and survey. Responses as well as undelivered or ineligible mail were tracked. A reminder postcard and a second copy of the survey were mailed if the member did not respond. The returns, response rates and sampling error are as follows:

**Sample Disposition**

	Returns	Response Rate	Sampling Error
Statewide	989	50%	+/- 3.2
District 11	540	54%	+/- 4.3
District 12a	526	53%	+/- 4.4
District 28	508	51%	+/- 4.4

The following annotated questionnaires disclose all responses for each sample. Percentages may not sum to 100 percent due to rounding or multiple response. Questions about this survey should be directed to Erica Dinger (202) 434-6176 or [edinger@aarp.org](mailto:edinger@aarp.org).
