INTRODUCTION

Weathering the Storm: The Impact of the Great Recession on Long-Term Services and Supports is the most comprehensive analysis to date on the budget cuts to both Medicaid and non-Medicaid funded long-term services and supports (LTSS) in each state. It also illustrates state-by-state how LTSS are financed. In addition, this study provides a very early snapshot of the likelihood of states pursuing some of the LTSS provisions within the Affordable Care Act (ACA).

Weathering the Storm contains several components:

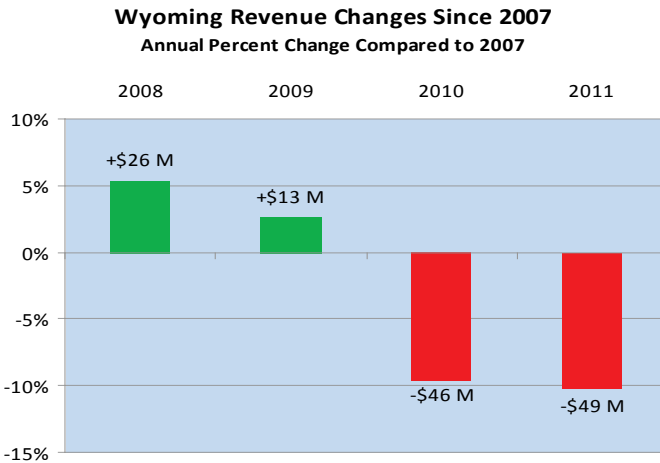

- The full report with an overview of findings and state-by-state tables;
- State profiles, which are 4 to 5 pages in length, for each state that participated in the study;
- An In Brief, which is a short synopsis; and
- A videotaped interview about the key findings.

Hard copies of *Weathering the Storm* are available free of charge. To order, please call the AARP Public Policy Institute at (202) 434-3890 or email jgasaway@aarp.org.

This section combines information from both agencies if both agencies responded. See the Overview for descriptions of these provisions.

STATE PRIORITIES: 18–24 MONTHS

- Educating about elder abuse and elder rights.
- Supporting the choice to remain in a safe home environment, including those in rural Wyoming.

STATE ISSUES

- Holding firm on state-funded-only program.
- Advocating for elder rights legislation, including conservatorships and guardianships.

STATE PROMISING PRACTICES

- The Long-Term Care Choices Act of 2007 created an "alternative elder care home" based on a Green House Model and resulted in establishing a program in north Wyoming. The state anticipates additional new Green House projects.
- The state developed a State Plan on Aging in collaboration with the community, building from the grassroots up to the state level.

The information in this profile represents information available to state officials at a point in time. Surveys were conducted from June through September 2010. Wyoming's fiscal year begins July 1 and ends June 30.
