## Medicare Drug Plan Ratings

This AARP rating tool contains information about “stand-alone” Medicare plans in your state that cover only prescription drugs. Each year, from November 15 to December 31, people enrolled in a Medicare drug plan may switch plans. Others who have not yet enrolled in Medicare Part D can also use this time to sign up.

You can compare Medicare drug plans using this AARP rating tool. We’ve listed all the Medicare-approved drug plans in your state along with some helpful information about each plan.

### Using the Tool

**The drug plans are listed in alphabetical order and are divided into three sections.**

- Section One: lists plans that do not pay for any drugs in the coverage gap (also known as the donut hole).
- Section Two: lists plans that pay for only generic drugs in the coverage gap.
- Section Three: lists plans that pay for generic and some brand name drugs in the coverage gap.

(A drug plan sponsor may have one or more plans in a section.)

*Note:* You’ll reach the coverage gap in 2007 if your total drug costs (what you and your drug plan pay for your drugs excluding premiums) will be greater than \$2,400. If you receive Extra Help, you’ll have no coverage gap under any plan.

**Go to the blue cost section of the chart. For each plan, you’ll see:**

- The Monthly Premium for 2007
- The Annual Deductible for 2007

- A Total Cost Range based on the number of drugs you take.
  - You’ll need to determine which of these categories fits your drug use: low (taking 3 medications or less), medium (taking 4-5 medications), or high (taking more than 6 medications).
  - The dollar signs represent a range of total costs you could expect to pay under the plan (lowest cost plans are \$, highest cost plans are \$\$\$\$\$). A key with the range of total costs is included below.
  - Total costs include: the deductible, monthly premiums, and all other costs you will pay.
- Extra Help Pays Full Premium. You will pay no or a reduced premium for plans marked “yes” if you qualify for extra help.

**Go to the orange section on drug coverage. For each plan, you’ll see:**

- What percent of the 100 most commonly used drugs by people with Medicare the plan covers. Look for plans that cover the most drugs.

### Important Considerations

- Before enrolling in a plan, you should check with the drug plan to make sure it covers the drugs you use.
- Remember your actual costs will vary based on the specific drugs you take and the plan you choose.
- Be sure to check with the plan to see whether its preferred pharmacies are convenient to you.

### Key: Range of Cost by Beneficiary Use

Annual Cost	Low Drug Use	Medium Drug Use	High Drug Use
\$	\$545–848	\$825–1177	\$2882–3887
\$\$	\$849–955	\$1178–1306	\$3888–4037
\$\$\$	\$956–1043	\$1307–1404	\$4038–4137
\$\$\$\$	\$1044–1165	\$1406–1549	\$4138–4217
\$\$\$\$\$	\$1166–2108	\$1551–3000	\$4218–7173

## Medicare Drug Plan Ratings

### Terms

- **Monthly Premium:** The amount you pay each month to receive drug coverage
- **Annual Deductible:** The amount you must pay each year for your medicine before your plan starts to pay your costs
- **Annual Costs for Low Drug Use:** An estimate of the costs a beneficiary would pay if taking 3 medications for diabetes and hypertension
- **Annual Costs for Medium Drug Use:** An estimate of the costs a beneficiary would pay if taking 5 medications for diabetes and hypertension
- **Annual Costs for High Drug Use:** An estimate of the costs a beneficiary would pay if taking 9 medications for diabetes, hypertension, and respiratory illness
- **Coverage of Top 100 Drugs Used by Medicare Beneficiaries:** Percentage of the Top 100 most commonly used drugs by Medicare beneficiaries that are covered by the plan

\* Recent guidance from CMS indicates that those Medicare beneficiaries who qualify for extra help should pay no or a reduced premium for these plans.
