

ARE YOU COVERED?

AARP, The Alzheimer's Association, American Cancer Society Cancer Action Network (ACS CAN), American Diabetes Association and American Heart Association have joined together to call attention to America's health care crisis and are asking every American, "Are you covered?"

THE GROUP'S JOINT FUNDAMENTAL GOALS ARE:

- Quality health care for all.
- Health care that is affordable.
- Health care without the "red tape."
- Health care when and where people need it.

Through their nonpartisan efforts, the groups intend to increase public awareness about the importance of access to health care and encourage candidates to address the issues.

Questions to Ask Presidential Candidates

Are You Covered?

Millions of Voices for Quality Health Care

HEALTH CARE COSTS

An issue that weighs heavily on a lot of people is the cost of health care. Too many of us know that we are just one injury or illness away from losing everything we have. **What will you do to make sure people can afford the health care they need?**

HEALTH CARE COVERAGE

Health care today is complicated, and even those of us who think we have good insurance find out too late that our coverage isn't enough. **What will you do to make sure people have health coverage that works for them if they get sick?**

PREVENTIVE CARE

As the saying goes, an ounce of prevention is worth a pound of cure, but too many people are still going without the preventive care we know can make a difference in their lives. **Do you have a plan to expand access to preventive care?**

ACCESS TO AFFORDABLE, QUALITY HEALTH CARE

As president, how would you ensure that ALL Americans would have access to affordable, quality health care, regardless of income or pre-existing conditions?
