Percent Households under 150% of Poverty, by Age

- 50+: 20.0%
- Under 50: 19.2%
- All ages: 19.5%

Energy Assistance

Energy Assistance among Households with Incomes at or Below 150% of Poverty

- Eligible households not receiving energy assistance: 96.4%
- Eligible households receiving energy assistance: 3.6%

Telephone Assistance

Telephone penetration rate in state: 89.5%

Percent Households At or Below 150% of Poverty Receiving Lifeline Assistance

- Households at or below 150% FPG not receiving Lifeline assistance: 89.7%
- Households at or below 150% FPG receiving Lifeline assistance: 10.3%

Telephone Assistance

Lifeline and LinkUp are the primary sources of telephone assistance for low-income households in Georgia.

Lifeline

Lifeline provides participating low-income households with a monthly credit toward the price of basic local telephone service.

Benefits (2006)

- Maximum monthly credit: $13.50
- Basic federal support: $8.25
- Maximum state support: $3.50
- Maximum federal match: $1.75

Funding (2005)

- Federal: $8,166,837
- State: $2,898,210 (est.)

Local telephone companies recover the cost of providing the state portion of this benefit ($3.50 maximum per subscriber) in the rates they charge non-Lifeline subscribers for basic local telephone service.

Eligibility (2006)

To receive Lifeline assistance, state residents must complete an application with their local telephone provider and prove they are enrolled in any of the following programs:

- Temporary Assistance for Needy Families (TANF)
- Supplemental Security Income (SSI)
- Food stamps
- Medicaid
- Senior citizen low-income discount plan offered by the local gas or power company

Beneficiaries must recertify with their local telephone provider periodically to remain eligible for this program.

Participation (2005)

Households served: 69,005
Energy and Telephone Assistance in the States

Participation rate: 10.3% (based on 150% of federal poverty guideline)

**LinkUp**
Qualified customers receive a discount on the price of installing new telephone service.

**Benefits (2006)**
LinkUp subscribers receive the following:
- A credit of $30 or a 50 percent reduction in the charges customers pay for connecting to new telephone service, whichever is less
- The option of deferring payment on the balance of the connection fee (up to $200) with no interest charges for a period not to exceed one year

**Funding (2005)**
Federal: $210,580

**Eligibility (2006)**
Eligibility requirements are the same as for Lifeline.

**Participation (2005)**
Households served: 8,671

### Energy Assistance

Energy assistance programs in Georgia include the following:

- Low-Income Home Energy Assistance Program (LIHEAP)—Regular Energy Assistance Program
- Weatherization Assistance Program (WAP)
- Low-income senior citizen discounts

Low-Income Home Energy Assistance Program (LIHEAP)—Regular Energy Assistance Program
The federal Low-Income Home Energy Assistance Program (LIHEAP) provides the state of Georgia with a block grant to help eligible low-income households meet their immediate home energy needs. With this grant, Georgia distributes payments for heating assistance. The state also uses a portion of the

grant to supplement funding for the state’s Weatherization Assistance Program (WAP).

**Benefits (FY2006)**
Heating: $220 maximum per household
Cooling: $220 maximum per household
Crisis: $220 maximum per household

Clients receive a benefit once a year, paid to the energy provider. Heating assistance is available from November 1 to April 29, and crisis assistance from November 1 to May 31. Crisis assistance funds can be used for cooling. Georgia employs a one-month early application period for older and home-bound residents.

**Funding (FY2006)**
Total: $58,349,327
Federal: $40,099,327
- Regular net block grant: $20,979,412
- One-time additional net block grant: $18,190,973
- Total emergency/cont.: $855,734
- FY2005 LIHEAP carryover: $62,432
- Leveraging incentive funds: $10,776
State: $18,250,000
- Public Service Commission: $14,100,000
  (from state universal service fund)
- Governor’s office: $4,150,000

The Georgia Department of Human Resources distributes grants to community action agencies throughout the state. These agencies accept applications, determine eligibility, notify clients, and make payments to energy providers.

Georgia allocates LIHEAP funding in the following manner:

- Heating: 50%
- Crisis: 25%
- Weatherization: 15%
- Administration: 10%

**Eligibility (2006)**
State residents with household incomes at or below 150 percent of poverty, who pay home energy costs directly, are eligible for assistance.

Weatherization Assistance Program (WAP)
Through the Weatherization Assistance Program (WAP), the U.S. Department of Energy provides Georgia with a formula distribution grant to help low-income residents—especially those 60 years and older, disabled, or living with young children—increase the energy efficiency of their homes, reduce their energy expenditures, and improve health and safety.

Benefits (FY2005)
Maximum benefit per household: $2,684
Weatherization technicians use energy audits to identify and implement energy-saving measures for each home. Examples of these measures include the following:

- Insulating attics, floors, water heaters, and exposed pipes
- Tuning up, repairing, or replacing the furnace or heating unit and/or air conditioner
- Providing ventilation fans—including electric, attic, ceiling, or whole-house fans—to increase air circulation
- Stopping air infiltration by weather stripping and caulking around doors and windows, replacing broken glass panes, and installing storm windows

Funding (FY2005)
Total: $10,099,384
Federal: $8,199,384
  Department of Energy: $3,339,105
  Additional LIHEAP funds: $4,860,279
Utility: $1,900,000
  $1,100,000 (Georgia Power)
  $800,000 (Atlanta Gas Light)

The Energy Division of the Georgia Environmental Facilities Authority distributes grants to 21 community action and nonprofit agencies across the state. These agencies accept applications, determine eligibility, and provide weatherization services, such as performing energy audits and implementing suggested measures.

Eligibility (FY2006)
Homeowners with household incomes at or below 150% of the federal poverty level are eligible for weatherization assistance. Priority is given to elderly or handicapped homeowners. Rental property can be weatherized with a signed agreement from the landlord.

Participation (2005 - 2006)
Households served: 2,517

Low-Income Senior Citizen Discounts
Major gas and electric utilities in Georgia waive their monthly service charge for older low-income homeowners.

Benefits (2005)
Georgia Power and Atlanta Gas Light both offer senior citizens a discount of $14.00 per month. This discount in essence waives the monthly base charge for Atlanta Gas Light and Georgia Power who meet eligibility requirements.

Funding (2005)
Total: $22,500,000
  State: $22,500,000

The discounts are funded through a $0.20 to $0.24 per month surcharge to customers of Atlanta Gas Light and Georgia Power. The Resource Service Ministries of Atlanta accepts applications for the program. The Georgia Department of Human Resources determines eligibility and informs the utilities of customers who are eligible for the discount.

*Includes $5,100,000 in relief for eligible Atlanta Gas Light Company (AGLC) customers. Each qualified customer received a one-time $150 credit to help defray natural gas prices.
Energy and Telephone Assistance in the States

Georgia

Eligibility (2006)
Residents of Georgia age 65 and older who own their own homes and have total household incomes of less than $12,000 per year for Georgia Power and $14,355 for Atlanta Gas Light are eligible for assistance.

Participation (2005)
Households served: 90,000
  Electric waivers: 55,000 households
  Gas waivers: 35,000 households

Health, and Income-Related Disconnection Policy

Seasonal
Between November 15 and March 15, Georgia prohibits disconnection of residential electric or natural gas service whenever the National Weather Service forecasts that the temperature at that location will be 32°F or below during a 72-hour period beginning at 8 a.m. on the date of the proposed disconnection. During the winter protection period, utilities are prohibited from disconnecting residential service if a customer agrees in writing to a deferred payment plan and adheres to the arrangement.

Health
Georgia requires natural gas and electric utilities to delay for 30 days—or the duration of the illness, whichever is less—the disconnection of residential service when a medical professional certifies that such an action would result in a decline in the health of the customer or other permanent household resident.
